

## PRICE LIST 2023

### QUALITY SPECIMENS OF LIMITED AVAILABILITY

Specimens created by Bare Bones Concepts, LLC take several months to create. Each specimen is unique to its own basic anatomy and processing. Therefore, specimens are not exactly as depicted in the demonstration image on the website and variations from one shipment to the next may occur. You may request images of all specimens in the order before shipping for a \$15 service charge.

Inventory may be limited for specific items, as there are limited number created each year. When purchasing packages, you will have the option to exchange a similarly priced item for any out-of-stock item.

---
